FROM *Our Founder*

As I sit down to write this, I'm reflecting on how far we've come (36 years, to be exact) since the first Lorna Jane collection – and what a ride it's been! From humble beginnings to now seeing our pieces worn in the world's most stylish cities (Paris, we're looking at you), it's clear our mission hasn't changed - we're still here to support and inspire you to move, live, and dress with purpose.

We had a lot of fun bringing this July/August issue to life, and I'm really proud of what we've created. First up, I'm excited to introduce our latest muse, Brittany Hockley. You probably know her from her Life Uncut Podcast and now you can get an inside look at her style. Britt brought such a genuine energy to the shoot that I convinced her to keep chatting... and we hit record for an upcoming episode of my podcast. I can't wait for you to hear it—scan the QR code to listen once it launches.

Next, can we talk about the Dance Pant revival? Following on from our iconic Flashdance Pants (originally launched in 2005 and still going strong), we reintroduced our Dance Pants and Shorts last year—and you loved them (like, really loved them). So, this season we're bringing them back with pockets. Because you asked and as always, we listened.

In this edition, you'll also meet Lisa Nicolaisen, a Pilates Instructor who redefines what strength looks and feels like. Lisa's take on movement and consistency reminds us that strength isn't found in perfection, but in the quiet moments of choosing

yourself daily. And of course, what you wear makes a difference (her words not ours xx).

And yes, we've added a dreamy new drop to our sleep collection. Designed to support your rest with the same care and consideration we bring to your workouts. This issue is packed with pieces that work as hard as you do, while making space for pause, play, and everything in between.

I hope you love what we've created and that it inspires you to live (and dress for) a life that you love.

LISA NICOLAISEN

At Lorna Jane, we believe strength isn't just about what you lift, it's about how you show up for yourself every single day. Our pieces are built for the woman who never gives up, moves with purpose and redefines strength daily. The woman who carves out five minutes of movement, because that's all she can give today, and she knows that doing something is better than doing nothing at all.

To bring this message to life, we partnered with Pilates Instructor @lisanicolaisen, whose approach to movement reflects everything we stand for. She reminds us that strength isn't loud, it's consistent.

And it's built by turning up for yourself daily.

ACTIVewear THAT WORKS AS HARD AS YOU

For over 35 years, we've led the way in functional fashion, blending innovation with considered design to create pieces that move with you, support you, and elevate every moment of your day. This collection is no exception.

Sculpt With Lisa

We sat down with Pilates Instructor, @lisanicolaisen, to ask why she moves. For Lisa, it's about more than just physical strength. Movement is her mindset. It's how she grounds herself, builds confidence, and shows up with purpose - on and off the Pilates mat.

Now, she's sharing her go-to glute burners to help you tap into that same energy. From sculpting to strengthening, these moves are designed to fire up your body and mind.

TREND ALERT

Elevated PJ dressing

Forget everything you already know about pyjama dressing - this collection delivers PJ-inspired comfort that is fashionable and wearable enough for your work day, weekends and everything in between.

*Redefining
the rules of...*

FASHION

At Lorna Jane, we don't just follow trends, we create them. Our collections are designed for how you actually live, with our design team forecasting the future and creating pieces with purpose. It's fashion that is also versatile enough to adapt to your day and makes living feel more effortless.

Because here's the truth: fashion shouldn't come with a rule book. You should be able to style your PJs for your coffee run, wear your Activewear to the office, and turn your post-practice sweats into a 'lunch with the girls' look. Fashion that gives you freedom – now that's something we've been looking for.

Recharge *in Style*

With @brittany_hockley as our muse, these styles redefine what it means to dress for rest—refined, relaxed, and completely wearable. Made for moments that move slowly but mean everything, this collection invites you to unwind with intention (and undeniable style).
