

## SYNTHETICS

- Recycled Synthetics - Global Recycled Standard (GRS)
- Recycled Synthetics - Recycled Claim Standard (RCS)

## COTTON

- Good Earth Cotton
- Australian Cotton - MyBMP
- Certified Fairtrade Cotton
- Global Organic Textiles Standard (GOTS)
- Organic Content Standard 100 (OCS 100)
- The Global Recycle Standard (GRS) or The Recycled Claim Standard (RCS)
- Supima Cotton
- Cotton Made in Africa (CMiA) or Cotton Made in Africa Organic certified (Hard Identity Preserved Implementation System only)
- EU Organic Cotton
- ISCC (International Sustainability and Carbon Certification)
- CottonConnect REEL
- US Cotton Trust Protocol
- Responsible Brazilian Cotton

## CELLULOSE

- LivaEco™ Viscose
- TENCEL™ Lyocell and Modal fibers
- TENCEL™ x REFIBRA™
- EUROPEAN FLEX® standard
- Naia™ Renew
- Linen / Hemp - certified organic to GOTS
- LENZING™ ECOVERO™ fibres
- Ramie
- Canopy Style Standard cellulose
- FSC certified fibres

## WOOL

- Responsible Wool Standard (RWS) certified
- Merino Fibre (ZQ) certified grower (farm)
- Certificate of Origin (international wool where mulesing is not an issue)
- AWEX National Wool Declaration (Australian wool)
- Australian Wool Testing Authorities AWTA certificate (Australian wool)
- New Merino (Australian wool)

## DOWN

- Plant-based Sorona® filling
- Responsible Down Standard (RDS) certified
- Global Traceable Down Standard (Global TDS) certified
- Recycled fibres - certified to The Global Recycle Standard (GRS) or The Recycled Claim Standard (RCS)

## OTHER STANDARDS AND PROCESSES

- Dyeing and/or finishing techniques which substantially reduce water footprint
- Regenerative Organic Certified™ Bronze, Silver, or Gold standard
- Cradle2Cradle
- Guaranteed Fair Trade Organisation (GFTO) standard by the World Fair Trade Organisation
- Nest Seal of Ethical Handicraft
- Certified Blue Sign
- Ethical Clothing Australia (ECA)
- Ethical Fashion Initiative
- Fair Wear Foundation

## FREE OF HARMFUL CHEMICALS

- Oeko-tex certified

*At Lorna Jane, we are committed to promoting sustainability and environmental responsibility in our fabric choices. Our Preferred Fibre List is designed to guide our selection of materials based on their environmental and social impacts, ensuring that we uphold our values of ethical production and sustainable fashion.*

*To develop our Preferred Fibre List, we used the Textile Exchange's Preferred Fiber & Materials (PFM) Matrix as a baseline. The Textile Exchange is a globally recognized leader in driving sustainability in the textile industry, and their PFM Matrix provides comprehensive insights into the environmental and social impacts of various fibers.*

Lorna Jane will report on their progress every 12 months via their Sustainability page (Next update due: July 2025)

***In order to meet Lorna Jane standard, the preferred fibre must account for >50% of total main composition. Our focus for now is Apparel (Main / Outer only) as this is where we can make our largest impact.***
